

Couples Cranium

Game Activity

Couple's Cranium is a fun and cheeky board game that is perfect for an easy winter date night at home with your sweetheart. The journey of falling in love is a memorable one and full of fun, laughter and challenges. That is exactly what you will find as you race from start to finish on the Couple's Cranium game board. Our version of the Couples Cranium Game is somewhat cheeky, a little bit sexy and definitely a whole lot of fun!

WHAT IS INCLUDED IN THE COUPLE'S CRANIUM GAME:

Couple's Cranium Game Board
Colourful Dice
Challenge Cards
Player Game Pieces

WHAT YOU'LL NEED FROM HOME :

White Board and Marker or Pens and Paper
Bulldog clips
Sticky Tape

BEFORE YOU START:

Before starting the game, you will need to do a little prep. Print out all the pages – preferably in colour, but you can print in black and white and use a highlighter to colour the dice and game cards.

Cut out the dice card and fold along the lines to create a cube shape. This is where you will need some tape to hold your cube together. This is the dice you will need to play the game.

Cut out and choose your playing piece, use a bulldog clips to act as the base of the piece.

You will also need to cut out all the game cards and keep them separated by colour. When you have cut them out, lay them face down on the playing surface or in 3 separate containers.

Now you're ready to play!

HOW TO PLAY:

The goal of Couple's Cranium is to be the first to get your game piece from the starting line to the end. Decide who rolls first by playing a quick game of Rock-Paper-Scissors.

The first player will roll the dice, whatever colour lands up is the colour challenge card that you will take.

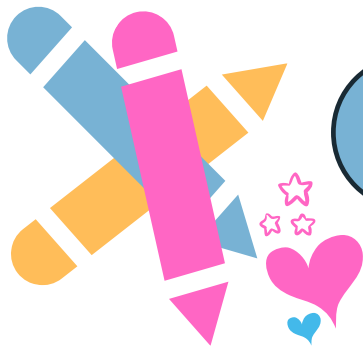

If you successfully complete the challenge, you may then move your game piece on the board to that next corresponding colour. If you don't complete the challenge you remain where you are on the board and must attempt the same colour challenge card again.

You will attempt three different styles of challenges in this game.

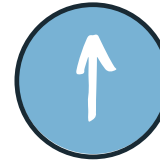

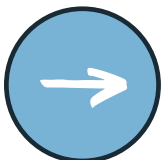

BLUE, players must complete a charade challenge. They will act out a adult-themed word or phrase without using any sounds. If their partner can correctly guess the word, they may move forward a space.

PINK, you have a Pictionary-like challenge. The card will give you something to draw. If you can draw the item so clearly that your partner is able to guess what it is, you move forward on the board.

ORANGE, you get a "Name That Song" challenge. You will need to get your partner to guess a specific song by only humming. If you and your partner can name it, you move forward!
